49. a

Figures 1, 4, 7 consist of full circle.

Figures 2, 5, 8 consist of one-pointed end figure.

Figures 3, 6, 9 are bucket shaped figures.

50. a

Figures 1, 4, 9 are Cuboids.

Figures 2, 6, 8 are pots with lid.

Figures 3, 5, 7 have half circles.

51. a

In first step the cross sign moves downwards while the minus sign remains static. In second step the cross sign remains static while the minus sign moves westwards. In third step the cross sign will move to bottom middle position while the minus sign will remain static.

52. c

In each step the figure rotates 45° clockwise and one leaf is added. Also the lining pattern

changes alternately. Therefore option (C) will be correct.

53. a

In each step the circle moves anticlockwise around the pentagon while the cross sign moves clockwise. Also the 'Swastika' moves 2, 3, 4, 5, ... spaces respectively in clockwise direction.

54. b

In each step the bigger figure rotates through 90° clockwise and changes its position diagonally. Also the circle is moving clockwise but the shaded region inside the circle is moving anti clockwise.

55. a

In each step the given figure rotates through 45° clockwise.

56. d

In each step the triangle is changing its position diagonally while the circle is moving anti clockwise.

57. a

In each step one small dot is added and one curve is removed.

58. d

In each step one line segment is removed in a particular way.

59. a

In each step the bigger design rotates through 45° anti clockwise while the smaller design rotates through 90° clockwise.

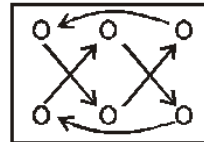

60. b

In each step the three designs are moving from left to right in a way that the rightmost design

moves to the leftmost position. Also the shading pattern is moving from right to left.

61. b

From 1st figure to 2nd figure the following changes took place:

Similar changes would occur from 3rd figure to 4th figure.

62. d

From 1st figure to 2nd figure the left and right designs interchanged positions. Also the top and bottom designs interchanged positions.

Similar changes would occur from 3rd figure to 4th figure.

63. d

From 1st figure to 2nd figure the horizontal arrow rotates through 45° clockwise.

64. a

From 1st figure to 2nd figure the design rotates through 90° clockwise.

65. d

From 1st figure to 2nd figure the outer and inner designs interchanged positions.

66. d

From 1st figure to 2nd figure the middle and the innermost designs interchanged positions.

67. b

From 1st figure to 2nd figure there lefts only third design and the other designs are removed.

68. c

Here the 3rd figure is the mirror image of 2nd figure. Similarly 4th figure will be mirror image of the 1st figure.

69. a

We get the 2nd figure after rotating the first figure through 180° . Similarly we will get 4th figure after rotating the 3rd figure through 180° .

70. b

From 1st figure to 2nd figure one line segment is added to the bottom of the given letter and another letter is formed. Similarly we will get letter 'L' from letter 'I'.

71. a
